

**Smoking Out the *REAL TRUTH!*
Vaping, Marijuana & Other Addictive Drugs
Presented by:
Edie Gibson, RDH, MS**

With vaping an escalating trend, especially in our youth, and marijuana now legal in many states, a shifting paradigm of drug use is evolving. New studies have shed light on the danger of vaping chemicals while uncovering the potential health benefits of cannabis! The ability to communicate these new issues to our patients is critical as health care providers.

This program will uncover the mysteries of E-cigs, JUULing, recreational and medical cannabis, as well as the top 5 most common drugs of abuse, and expose the reality hidden by the "smoke and mirrors". You will learn to:

- Understand the oral and systemic effects of electronic nicotine-delivery systems (ENDS) and marijuana
- Distinguish myth vs reality of the medicinal aspect of marijuana and "safety" of ENDS (e-cigs/ vaping)
- Identify the current trends in vaping and marijuana use
- Understand the top five most commonly abused drugs and their adverse effects on the developing brain

**Edie Gibson is a charismatic,
knowledge-wealthy trainer with a
mission and passion to affect
*CHANGE!***

Edie is a Registered Dental Hygienist that brings over 30 years of diverse, hands-on clinical and business expertise to the podium. She incorporates real world experiences and humor into all her programs, making difficult subjects fun, empowering, and thought provoking for the entire *TEAM!*
